

Dear reader,

The deadline for the call for presentations is now Wednesday, 23 December 2015, 23:59 CET

So far, the call has resulted in a large number of submissions; however, there is a relatively low number of presentations in the Pecha Kucha format and in the Challenge format. These formats are thus particularly welcome in this one week extension. Of course all submissions will be treated equally. Already submitted presentations can still be edited until the new deadline.

You can find all useful information on the [ECOMM 2016](#) website

Submission is electronic via an own [submission site](#). Detailed information on the call for papers is available on those sites or directly [here](#).

Your participation in ECOMM 2016 will be a rewarding experience for a number of good reasons:

- Athens is an ideal congress destination combining state of the art infrastructure, excellent conference facilities and easy access all over the world with world class cultural attractions, modern amenities, diverse entertainment and natural beauty.
- You will have the chance to attend a huge number of stimulating sessions, covering a wide spectrum of mobility related topics, as well as listen to some of the latest developments and innovations taking place in Greece and worldwide.
- You will have the chance to take part in parallel activities, such as biking or walking along a 25 centuries old pathway that connects the congress venue to the Athens Acropolis, simultaneously getting a feeling of the way Greeks were living during the Pericles era.
- You will feel many aspects of the Greek hospitality and you will have the chance to taste the Greek cuisine. There's also a good chance that you will find out about some of the small secrets of Green gastronomy.
- This event will be the 20th ECOMM and this means celebrating its 20th anniversary; be prepared for some surprises!

It should be pointed out that ECOMM 2016 invites not just you, but also your partner and children; your beloved will have the chance to visit the technical museum located at the Congress venue, as well as enjoy some interesting activities which will be organised as part of the event.

Do not miss this opportunity to experience, along with your professional interests, an enjoyable break in a city and a country worth visiting.

We wish you all the best and we look forward to your contribution(s) and your presence in Athens for the 20th ECOMM on June 1-3, 2016.

Best regards, merry Christmas and a happy new year from EPOMM and from the **ECOMM 2016 organisation team**.
