In April 2015, administration of city of Belgrade, Belgrade's Secretariat for Transport, requested that project "Updating Transport Model of Belgrade with Travel Pattern Research" is carried out. Request for setting up this project was in accordance with the principles of sustained strategic planning; considering numerous activities that are being undertaken in the area of developing the Belgrade's traffic system and also considering changes that occurred in the last decade.

Area concerned is a: City

Data based on: City survey
